Festival admission includes entry to the Pioneer Museum.

If you are interested in participating in the Heritage Festival as a demonstrator, contact Andrea Greene 928-699-2012

Join the Arizona Historical Society Northern Chapter for the annual Flagstaff Heritage Festival. This exciting daylong event will feature demonstrations of pioneer skills and trades that were typical and crucial in Flagstaff's founding years. The demonstrators have preserved and perfected these skills and invite our visitors to join them in a time before telephones, light bulbs, and a host of other modern conveniences. Demonstrations will include candle making, rope making, blacksmithing, spinning

and weaving, sewing, potting, and logging sports, all steeped in history yet distanced from us today by layers of technology and retail outlets. You just may be surprised to find out how local and sustainable history can be! The Pioneer Museum uses our history to address modern issues as we make rope with plastic shopping bags or other materials that would otherwise end up in the landfill. Blacksmiths are the original recyclers and these skills will be showcased in the new blacksmith shop on the grounds of the Pioneer Museum. And you don't want to miss the historic tortilla machine in action for the first time in more than 40 years. Great food, great music, much to be inspired by. Come see how we make history!

**Other Demonstrators:**

- Kaye Hobbs, soap making
- Rick Miller, woodworking
- Jackson Peters/NAU, lumber sports
- Willa McAuliffe, canning/jam making
- Robbin Robinson, hand shearing sheep
