HISTORICAL NOTE

The Arizona Nurses Association (AzNA) is the only statewide professional association of registered nurses, and is a constituent member of the American Nurses Association (ANA).

Since 1919, the Arizona Nurses Association has been helping nurses navigate an increasingly complex healthcare environment. AzNA is the largest and most widely recognized professional nursing organization in Arizona with members from all practice roles and settings. While many organizations talk about what they will do for their members, AzNA has been delivering results benefiting nurses for over 85 years.
