PROCESSED BY: Various. Finding aid created by staff and volunteers, 2013.

HISTORICAL NOTE: The Biography Collection is an active, artificial collection. The donations came from multiple sources. The earliest files in the collection were intended to capture information about Arizona pioneers. The **Pioneer Biography** form contains sections on parents, siblings, spouses, children, education, work history, religious affiliation, and military service. In addition the form documented when and how the individual arrived in Arizona and memorable experiences while living in Arizona. The forms were filled out by the individual, usually with assistance from a family member or student. Hayden Pioneer Biographies are identified in the title.

SCOPE AND CONTENT NOTE: The Biography Collection consists of a wide range of materials from individual Arizonans. Individual files may contain genealogy and family history information, reminiscences, interviews, resumes, obituaries, eulogies, funeral cards, newspaper and magazine articles, research notes, and occasionally original or photocopied correspondence, legal documents such as birth and death certificates, real estate deeds, wills, and family memorabilia. Many files contain only a single item, while some files are voluminous. New files and additional material are added on an occasional basis.

Additional Resources: Photographs of many of the individuals can be found in the AHS-Tucson Main Photograph Collection.
