

TITLE: Arizona Department of Mines and Mineral Resources (ADMMR) Mining Collection

DATE RANGE: 1857-2011

CALL NUMBER: MS 1520.01

LOCATION: Arizona History Museum, 949 E Second St, Tucson, AZ 85719

PHYSICAL DESCRIPTION: 86 linear ft (86 boxes)

PROVENANCE: Transferred from the University of Arizona, 2022

RESTRICTIONS ON USE: Requests for permission to publish material from this collection should be addressed to Arizona Historical Society, Library & Archives.

PREFERRED CITATION: Arizona Historical Society, MS 1519.01: ADMMR Mining Collection

PROCESSED BY: Casey Brown, 2011-2012 (for AZGS); inventoried by AHS staff 2022

DIGITAL COLLECTION: Digital versions of many of the items in this collection can be accessed by searching for a specific mine name at: [Arizona Geological Survey Mining Data](#). Previous versions of this inventory are available as free AZGS Open-File Reports at the AZGS Document Repository: repository.azgs.az.gov

HISTORICAL NOTE: In January 2011, the Arizona Department of Mines and Mineral Resources (ADMMR) was closed due to a lack of operating funds. Subsequently, Governor Jan Brewer signed into law a consolidation of ADMMR with the Arizona Geological Survey (AZGS), effective July 1, 2011. As part of this merger, AZGS took custody of all ADMMR files and assets. Governor Brewer's office requested AZGS inventory, catalog, and scan all ADMMR records and files to ensure their preservation and to improve accessibility to them by industry, government, and the public.

At the Governor's request, a one-time appropriation of \$100,000 was approved for AZGS in fiscal year 2012 (FY12) to digitize and preserve the ADMMR files. AZGS received an additional \$41,495 from the USGS National Geological and Geophysical Data Preservation Program for FY12. Beginning in July 2011, AZGS undertook to inventory and catalog the analog files held by ADMMR, as the first step in what is expected to be a multi-year program to create a digital archive with complete metadata for all materials.

By August 2012, we completed collections level inventories of all materials in the ADMMR archives: 13,500 folders of mining records from 22 collections; approximately 10,000 maps in the ADMMR map collection; and 7,400 photographs from 6 collections.

In 2016, the responsibilities of the Arizona Geological Survey were transferred to the University of Arizona. In 2022, the University of Arizona transferred the ADMMR collections to the Arizona Historical Society.

SCOPE AND CONTENT NOTE: The Arizona Department of Mines and Minerals operated from 1940 to 2011 to promote the development of Arizona's mineral resources through technical and educational processes. This collection consists of various reports, maps, records and related materials acquired by ADMMR regarding mining properties in Arizona. At times, property owners supplied information, ADMMR staff performed field visits or staff clipped articles from periodicals and publications. Each record's title refers to the primary name of a unique mineral locality. Alternate names of mines will be included in the fully cataloged records. Since the former index (the Arizona Mineral Industry Location System) included not only mineral localities for which the Department had a report, but all mineral localities in Arizona, some files listed as "missing" may never have had a report.

The collection is divided into four sections: Mine Files, Lost Mine Files (mines with unidentified locations), Company Files, and ADMMR Publications.

SUBJECT TERMS: Mines and mineral resources--Arizona; Geology, Economic--Arizona
